We need your help!

Your school is participating in Fit to Study.
This project is investigating the effect of PE on academic performance.

We are looking for **Year-7 pupils** who want to participate in a **brain imaging sub-study**.
The sub-study involves some computer-based tasks, a test of activity and a
scan of your brain.

The sub-study would involve **two half-day visits** to a brain scanning centre in Oxford: one during **summer 2017** and one during **summer 2018**. Your parent(s)/guardian(s) will have to come with you so please discuss your participation with them.
You will be asked questions about your medical history to check your suitability for an MRI scan.

If you would like to find out more, or to express an interest in participating, then you or your parent/guardian can email
fittostudy@fmrib.ox.ac.uk or call **07864 800761**.
